TITLE A Directory of Library Systems in New York State.
INSTITUTION New York State Education Dept., Albany. Div. of Library Development.
PUB DATE 77
NOTE 106p.

EDRS PRICE MF-$0.83 HC-$6.01 Plus Postage.
DESCRIPTORS *College Libraries; *Directories; Library Networks; *Public Libraries; *Special Libraries; *University Libraries
IDENTIFIERS *New York

ABSTRACT

This directory, compiled from information supplied by directors of the systems, and state departments or agencies administering library programs, contains listings of the Reference and Research Library Resources Systems in New York state. They are arranged regionally and alphabetically with each section containing information on the reference and research libraries; the public library systems; and state institution libraries. Information provided for each includes the name of the director, address of the system, telephone and teletype numbers, year of establishment, names of principal staff and of the president of the system board of trustees, name of each county participating in the system, and the number of member libraries. Addresses are also given for all member institutions and libraries. Maps indicating locations of the Reference and Research Library Resources Systems and the Public Library Systems are included, along with an index of these systems by county. (Author/MBR)

INTRODUCTION

This *Directory of Library Systems in New York State* is compiled from information supplied by directors of the systems, and State departments or agencies administering library programs.

Listings are arranged regionally and alphabetically by the name of the Reference and Research Library Resources Systems (see table of contents, page v). In each section directory information appears for (1) the reference and research library system; (2) the several public library systems; and (3) State institution (libraries).

Basic information for each type of library system is presented in a generally parallel format. This gives for each the name of the director, address of the system, telephone and teletype numbers, year of establishment, names of principal staff, name of the president of the system board of trustees, the name of each county participating in the system, and the number of member libraries.

Addresses are given for all member institutions and libraries. In the case of public library system members and State institutions, the city is not repeated if the name of the city appears as part of, or preceding, the library or institution name (the name is italicized for identification). Listings for State institutions include the State department of which each is a part.

Information in this *Directory* was checked and changes were made up through December 1, 1977.

Detailed statistical information on public libraries and institution libraries is available in separate publications. A separate directory of college and university libraries is also published.

We thank those persons who supplied information for this edition and those who forwarded comments on the format of the 1976 *Directory*. During the planning of this *Directory*, changes and modifications were made in accordance with several of the suggestions received. We invite comments on this edition.
